Description

Dvorovi Spa is Spa-recreation centre who gives medical services whole year, whereas tourist-catering services are mostly given over the summer time. The water is sodium-calcium-hydro carbonate-chloride one. Its analyses proved that water usage gives very good results in curing chronic rheumatic diseases, posttraumatic injuries of extremities and some forms of eczemas, lumbago, spondilosis and many others diseases. The spa has an excellent location in the North-East BiH, 5 km from Bijeljina City-connected with bicyclic trail and 14 km from border with Serbia.
