Bilateral Meetings

- Friday 12:40 - 17:00

Description

Divi doo company operates from 1991, after 1995, the main activity of the company was the production of plastic packaging for the milk industry. We are located in the southwestern part of Serbia at a distance of about 200km from Belgrade, near the mountain Zlatibor. Divi doo emerged as one of the leaders of Southeast Europe in the production of plastic packaging made from polypropylene. In our production facility we have the most modern machines for offset printing with 8 colors, which give additional possibility for aesthetic enhancement products in accordance with the requirements of our customers. The annual processing polypropylene at our production facility is over 18,000 tons and the company employs over 120 workers in 16.000m² production and storage facilities. Since 2009, the company expanded its activities to the production of a disposable cup that, in years to come, giving the necessary impuls for new investments in modern equipment and increase the capacity of the entire production. Our products we sell all over the Balkan and in all EU countries. With constant penetration of new markets we become predominant exporter with over 85% share in total sales. As a family company we have high flexibility and the ability to react quickly to every request of our customers as well as potential changes in the ever demanding and turbulent market. New challenges are motivated us each new day to be better than yesterday and the enormous energy and enthusiasm of our employees give us the strength and safe step into the future!
